

I'm writing from Stockholm Environment Institute (SEI). We are an international non-profit research and policy organization that tackles environmental and development challenges.

Currently, I'm working on a research paper that should assess the financial capability of some of the net zero cities in Europe. One of the cities that I'm doing research is Elbasan. I plan to assess the financial capability of different actors in the city of Elbasan by looking at various types of indicators. I'm in the process of checking and collecting available data from different sources.

I'm looking for yearly Labour force-related data from 2015 to 2022 and would be grateful if you can provide such data (if available) or advice me where shall I find the following data for Elbasan municipality:

1. Employment Rate in Elbasan
2. Long-term Unemployment Rate in Elbasan
3. Real wages or growth rate in Elbasan

If such data is not available, can you please tell me what data related to labour market is collected for Elbasan? I would highly appreciate your feedback or guidance how to collect the above-mentioned data for Elbasan.
